

Lingdale Clinic

NHS South Tees Clinical Commissioning Group's Primary Care Commissioning Committee agreed at its meeting on Wednesday 27 February 2019 to support our application to close the branch site at Lingdale Clinic.

This follows a period of engagement with patients and stakeholders including the local authority's Adults Communities Scrutiny and Improvement Committee and local councillors to understand the impact the proposed closure would have.

We will contact patients affected by the closure. We would like to reassure our patients that they will still be able to see the same doctors and nurses and continue to access the health services they need at our main site at Hillside Practice. We would encourage anyone with any concerns to discuss them with us.

Patients have the legal right to choose a GP practice that best suits their needs, if you do not wish to remain registered at Hillside Practice you can use the NHS Choices website to compare Practices that are in the area.
